

Marge lijn  
waar binnen  
tekst en logo's  
komen

The diagram shows a cross-section of a tunnel with several layers. From the center outwards, there is a red margin line, a black elastic layer, a white elastic layer, a compressed tunnel, and an outer grey layer. Labels on the left side point to these layers: 'Zwart elastiek' (black elastic), 'Wit elastiek' (white elastic), 'Meegedrukte Tunnel' (compressed tunnel), and 'Eventuele overdruk' (possible overpressure). The text 'Marge lijn waar binnen tekst en logo's komen' is located in the center of the tunnel.
